

Sports Premium funding is government funding to help support and improve the quality and range of physical education (PE), sport provision and pupil engagement in sport in school

### Purpose of the funding

The purpose of the funding is to improve PE and sport provision in school so that all pupils develop healthy lifestyles. Schools have the freedom to choose how they spend the money. Possible uses of the funding might include:

- Hiring specialist PE teachers or qualified sports coaches to work with primary teachers/staff when teaching PE
- Paying for professional development opportunities for teachers in PE/sport
- Providing cover to release primary teachers for professional development in PE/sport
- Running sports competitions, or increasing participation in school games
- Buying quality assured professional development modules or materials for PE/sport
- Providing training and payment for staff to provide playground games and/or clubs at lunchtimes
- Supporting or engaging the least active children through new or additional Change4Life sports clubs
- Providing extra, additional activities such as outdoor and adventure activities

### Thorp funding allocation

In 2017 the department for Education doubled the ‘Sports Premium’ funding that primary schools receive from £160 million to £320 million a year. The reasons for this were to improve the quality of the PE and sport provision pupils receive. Schools now have a wider remit in how they can spend their money but it must have an impact on all children’s PE and sports provision. Children should be given a wider variety of sports and activities to try out.

The government have also published [funding guidance](#) for this scheme alongside case studies showing how some schools have delivered a real impact for pupils through sports and physical activity.

The PE and Sport Premium is part of a series of programmes led by the department of Education to improve healthy lifestyles among pupils and tackle childhood obesity. As part of the [Childhood Obesity Plan](#), the government are working with other agencies to make sure children are healthy and active. At Thorp Primary we believe we have a duty to our children to encourage them to become healthy, have a chance to access a range of sporting activities and understand the importance of a healthy lifestyle.

YEAR	FUNDING
2015-2016	£8,900
2016-2017	£8,900
2017-2018	£17,820
2018-2019	£17,820

## **How will the sports premium be spent and who will benefit?**

At Thorp Primary School we believe that the money should be used so that:

- All children benefit regardless of sporting ability
- That children (and parents) are encouraged to make informed and healthier lifestyle choices
- That all staff have access to training opportunities and continued professional development
- That children increase their participation in the frequency and range of sports covered
- That sport contributes to their overall achievement and their greater social, spiritual, moral and cultural skills

Thorp Primary School has a history of sporting success and has always been keen to emphasise the importance of physical exercise and healthy lifestyles. The funding provided via the Sports Premium grant does not cover all the PE and sporting aspects that we already deliver, but the additional funding has been used to increase provision, expertise and participation.

### **Primary Sports Expenditure**

The Primary Sports premium for 2018-19 is being used to support the following initiatives:

#### ***Sports Development Workers***

In association with Oldham Sports Development Service we have bought in the services of two Sports Development Workers to work in school for one full day per week, split over two afternoon sessions. The Sports Development Worker delivers PE lessons alongside our staff thereby ensuring that not only will the children benefit from being taught by a specialist, but our own staff will be developed through sharing good practice and assisting in PE lessons. The Sports Development workers will also train our Year 6 Sports leaders each year. Sports captains then encourage pupils throughout the school to participate in active games during break times.

- Monday - classes (Reception) and (Y5)
- Friday - classes (Y1) and (Y6)

In addition, the Sports Development Workers also deliver extracurricular sporting activities. The extracurricular clubs will be aimed at all year groups from Reception through to Year 6. We will look at the children's interests and tailor clubs to what the children would like to do.

- Monday - after school club
- Friday - after school club

The Sports Development Worker also encourages links with existing local clubs and through Oldham Sports Development Service advises signposts and offers guidance to both school and pupils on possible routes for increased sporting provision and participation.

Cost £6,410

#### ***Health Champions***

We send two pupils on Health Champions training 3 times a year. They then deliver whole school assemblies on the themes and try out different activities with the children. We also pay for transport for the health champions training.

Cost £50

### ***Freddy Fit***

At Thorp we have always been keen to promote healthy and active lifestyles and we have commissioned "Freddy Fit" qualified sports coaches to come into school for one full day twice a year to provide fun and engaging activities for every child in school from Nursery to Year (6).

Approximate cost £800

### ***Amelia Faye School of Dance***

Millie Bogan is involved with Thorp and is coming into school for 7 days this academic year to work with KS1 and KS2 to teach their dance curriculum. Millie works towards set objectives and reports back to staff on how the children have got on. Millie changes her dance theme each time so the children have a varied dance curriculum. In addition to this, Millie also runs a 6 week morning dance club for years 5 and 6. During this club she teaches the children a dance routine which the children then perform to the rest of the school and their parents. Millie has a discussion with the children about their interests and possible choices of routines and the children choose the routine they would like to do.

Approximate Cost £1300

### ***Royton and Shaw Primary School Sport Calendar of Events***

This calendar of events and competitions sees a wide range of A+B team events for children from Y1 to Y6. Some of the events are held on all purpose outdoor pitches and some in a large sports hall. At the end of the summer term there will be a celebration event with awards for different children who have achieved their best in sports and competitions.

Approximate Cost £500

### ***Oldham Athletic Community Trust***

OACT come into school every Tuesday and provide lunchtime games, PE lesson cover and run an afterschool football club every week. They teach key PE skills to Years 2 and 3 (and in the summer term year 4).

Cost £3000

### ***Purchase new equipment to support Physical Development and healthy lifestyles***

In the Summer Term a full audit of PE resources will be completed. This audit, along with discussions with PE providers, will help decision making for the purchasing of new resources. A commitment to purchase new nets, training bibs and match bibs for the school netball team has already been made.

Approximate Cost £1500

### ***Servicing of PE equipment***

The school will also keep PE equipment up to date with new and replacement equipment. This will also keep us in line with health and safety regulations. We will also replace old and broken equipment and buy new equipment to support high quality teaching of PE.

Cost £350

### ***Transport***

In order for children to participate in sporting events during school hours, we will provide transport for children to and from events. When available, we will also use parent transport.

Approximate Cost £700

### ***Oldham School Sport Partnership***

We have joined this partnership so we can continue to participate in the schools cross country events on 6 Saturday mornings. We also encourage training sessions for our pupils who compete in this event. Key stage 1 children also attend the Gruffalo trail and reception children take part in balance bike training. This partnership also hosts A and B team events in other sports that the school can take part in.

Approximate Cost £500

### ***Friends of Thorp***

School will hold a reserve amount of sports funding money. This will be used to help support Friends of Thorp who are raising money to help improve the school grounds. The resources they want to purchase will help support children's mental health, physical health and develop friendships through play.

Approximate Cost £2000

**Any Sports Premium Money that isn't accounted for will be put to one side in case of an overspend in a certain area, for example if transport costs are more or Millie might do an extra session to support the summer show.**

### **Accountability/Impact**

Schools are held to account over how they spend the Primary Sports Premium and in doing so governors and school leadership will consider if the additional funding is having a positive impact on children's healthy lifestyles and/or improving PE and sport provision:

- Through improved teaching and learning of PE/sport through lesson observation and monitoring
- Through high quality inclusive PE curriculum provision
- Through increased uptake/provision in lunch and after school clubs
- Through school participation and partnership with other schools in inter school events and competitive sports
- Through greater pupil participation in PE and sport related activities (in and out of school)
- Through improved pupil recognition of healthier lifestyle choices - pupil voice activities
- Through wider pupil participation in alternative sporting activities
- Through increased pupil participation in active lifestyles (playground games/activities) at break and lunchtimes
- Through the celebration of sport and active and healthy lifestyles

## Sport Provision at Thorp Primary School this academic year

The following PE and/or sport provision is available at Thorp

- PE and sport curriculum lessons (all classes)
- Weekly swimming lessons (Y4 Autumn and Spring Term, Year 3 Summer Term)
- Young KS2 Sports Leaders "lunchtime activities/club" for (KS1) children
- After school clubs for all year groups (Rec-Y6)
- After school netball club (Y4/5/6 girls)
- Morning running club (Y3/4/5/6)
- Morning dance club (Y5/6)
- Cross country training sessions
- Inter school competitions (football/athletics/netball/cricket/cross country)
- Oldham Schools cross country events (x 6 sessions) - Saturday mornings
- Royton and Shaw Primary School Sport competitions
- A and B team competitive events
- Bikeability lessons (Y5/Y6)
- Balance bike sessions (Reception)

### 2017-2018 Evaluation

Expenditure	Amount	Result
Oldham Sports Development	£6324	Two afternoons per week and two afterschool clubs per week teaching good quality PE sessions. Also support with the young leaders program and support with the healthy schools program. <b>IMPACT-</b> Staff can see quality PE lessons being taught, we can offer a wider range of after school clubs and children attend who wouldn't normally attend. The sports leaders are well trained up and can engage younger children in more active play at lunchtimes. The Health champions get more support and can lead their work effectively throughout school.
Freddy Fit	£1200	The children enjoy learning about healthy active lifestyles and moving around with Freddy Fit. We have decided for 18/19 to book Freddy Fit for two sessions and look at spending the money on other good quality activities for the whole school. <b>IMPACT-</b> The children are enjoying physically active sessions. They are learning about healthy lifestyles.
Amelia Faye Dance	£1010	Millie has run a successful after school club and before school club. She also worked with Year 4 for a half term as part of their dance lessons. For 18/19 we will be looking at using Millie to deliver dance PE lessons across the school. <b>IMPACT-</b> Year 4 had some good quality dance lessons as part of their PE lessons and could create a simple dance sequence. The morning

		club offers a chance for pupils to take part in a club other than after school and will attract more pupils. Also pupils attend the morning club that haven't attended other clubs. The after school club is a chance for pupils to join in a dance club that isn't offered at any other time and will engage pupils that have an interest in dance.
Royton +Shaw Competitions	£500	This has given A and B teams the chance to compete in a range of sports and activities. <b>IMPACT-</b> Children who are not naturally sporty or competitive are given the chance to compete in events alongside children who are similar, resulting in confidence building and being able to try out new sports. It also gives A team children the chance to compete at a sport at a higher level.
Professional Development	£220	Mrs Grayson attended the yoga training and is looking at teaching some yoga sessions in school when the correct equipment has been purchased. <b>IMPACT-</b> To introduce a low impact sport/ restful activity to children who will benefit from it.
PE Equipment servicing	£335	Annual servicing to keep the PE equipment safe for children to use. <b>IMPACT-</b> When children are completing PE lessons, the equipment they are using is safe.
Transport	£1000	Transport has been arranged to take children to and from different sporting events. Parents are used whenever possible. <b>IMPACT-</b> We have been able to attend extra events by paying to go on a minibus and children have been given the opportunities to take part in different sporting competitions.
Project Playgrounds	£3965	We have been able to have new markings put on KS1 and KS2 playgrounds. This includes a daily mile track on the KS2 playground for the whole school to use. <b>IMPACT-</b> Children are more physically active at lunchtimes and break times. We also have something for the children to follow when taking part in the daily mile.
Oldham School Sport Partnership	£450	This has enabled us to compete in the cross country races on a Saturday morning. Year 1 and 2 also took part in the Gruffalo event. <b>IMPACT-</b> We have a strong cross country team and it is something that is built on in school, we came second in the league. Competing in this gives our runners a chance at winning. Year 1 and 2 enjoy the Gruffalo trail and it also has links to other curriculum subjects so gives them a wide range of learning opportunities. Our reception children also had the chance to take part in balance bike activities.

Supply Teachers to cover for Events	£1000	We have needed supply staff to cover to allow staff to take children to events. <b>IMPACT-</b> By covering teachers, children are given the opportunity to attend competitions and events that they wouldn't normally have the chance to attend, and staff have observed other key ideas to build into school activities.
Total costing for 2017-2018 £16,004		

### **Swimming and water safety**

The national curriculum states that:

*All schools must provide swimming instruction either in key stage 1 or key stage 2. In particular, pupils should be taught to:*

- ♣ *Swim competently, confidently and proficiently over a distance of at least 25 metres*
- ♣ *Use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]*
- ♣ *Perform safe self-rescue in different water-based situations.*

### **2017-2018 (Y4 class)**

<b>Skill</b>	<b>Percentage of pupils considered achieving this to a high standard by an Oldham registered Swimming Instructor</b>
Swim 25m confidently	100%
Range of strokes	69%
Land based rescues	100%
Personal survival	35%

Up until September 2018 it has always been the Y4 cohort that attends swimming lessons every year, and in addition to completing lessons on the above they have also participated in activities such as water polo.

From September 2018 swimming has been spread over three year groups so that children are able to participate in a range of PE/Sports over an academic year rather than just one. 2018-19 is the transition year, and so Y4 are swimming for two terms, and year three for one. We envisage a higher proportion of children achieving a high standard of strokes and survival techniques as there will be greater opportunities for children who require further development to receive this over the three years.
